KU KLUXISM LEADS TO WIDESPREAD USE OF LASH, TAR AND FEATHERS WHERE KLAN EXISTS

Dyer Will Leave No Stone Unturned to Get Sweeping Investigation

PROSECUTION LOOMING UP

By a Staff Correspondent

Washington, Sept. 19 .- Steps have been taken to demand an investigation Congress of the Ku Klux Klan Several members are understood to be preparing resolutions of inquiry about which they will not make announcement until ready to act formally. Representatives Dyer, of Missouri, and Tague, of Massachusetts, have an-nounced that they would urge the most thorough probe.

The matter will be pressed when

Congress meets, although definite action in the House will not come until October 4. An understanding was reached among House leaders before recessing that new business would not be taken up with the reconvening on September 21, but two weeks later.

Representative Dyer is making thorough plans for a resolution of inquiry called upon experts to investigate statutes and constitutional queswith which the Ku Klux Klan might conflict in order to find out how far he could go in his effort for an in-

I expect to be able to determine this by the time Congress reconvenes, and if I find we have the right I am going to introduce a resolution and will ask the Speaker to refer it to the Judiciary Committee, the proper place, in my opinion, for it to be considered.

first step after introducing it would be to ask the Rules Committee to make the resolution immediately in order. As soon as it is passed by the House I shall ask the chairman of the Judiciary Committee to appoint a subcommittee to conduct the inquiry. The resolution will give authority to take etimony under oath, either in Wash-

ington or elsewhere.

If the report of our sub-committee should show anybody connected with this organization has violated the Fedlaw, our committee would report to the House, with the recommendation that the Speaker call the attention of end that he institute prosecutions.
